## A TEST EXPERIMENT. Peculiar Power Possessed By a New Medicine.

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which is believed will take the place of all other remedies for the cure of those common and obstinate diseases, dyspepsia and stomach troubles. This discovery is not a loudly advertised, secret patent medicine, but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and bismuth.

These remedies are combined in lozenge form, pleasant to take, and will preserve their good qualities indefinitely, whereas all liquid medicines rapidly lose whatever good qualities they may have had as soon as uncorked and exposed to the air.

This preparation is called Stuart's Dyspepsia Tablets and it is claimed that one of these tablets or lozenges will digest from 200 to 3,000 times its own weight of meat, eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner: A hard boiled egg cut into small pieces was placed in a bottle containing warm water heated to 100 degrees (or blood heat); one of these tablets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time the egg was as completely digested as it would have been in a healthy stomach. This experiment was repeated with various other foodstuffs and the results were equally convincing.

At the same time the Tablets assist in the normal action of the stomach, hence its unquestionable value in the cure of dyspepsia and weak digestion. Very few people are free from some form of indigestion, but scarcely two will have the same symptoms. Some will suffer most from distress after eating, bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headaches, sleeplessness, pains in chest and under shoulder blades, extreme nervousness as in nervous dyspepsia, but they all have same cause, failure to properly digest what is eaten. The stomach must have rest and assistance and Stuart's Dyspepsia Tablets give it both, by digesting the food for it and in a short time it is restored to its normal action and vigor.

At the same time the Tablets are so harmless that a child can take them with benefit. This new preparation has already made many of the most famous doctors of the world, who are very anxious to try this remedy.

Mrs. Sarah A. Skeels, Lynnville, Jasper Co., Mo. Stuart's Dyspepsia Tablets are sold by druggists everywhere at the full retail price. A little book on stomach diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

**HIGH LIGHTS.**  
Wise Sayings Condensed For Very Busy Readers.  
Society contains many women who have good jewelry and had manners. Frequently it is better to have loved and lost than never to have loved at all. If you regard all annoyances as necessary evils, life is no chore at all. When a small boy gets big enough to run to a fire he considers himself grown up.

Only first class people can hold the respect and admiration of their second class friends.  
Before a woman goes away for the summer she always plans what she will do when she gets back. When some people get into society they are too busy to attend the church which gave them their start.

It is sometimes so hot that even the vainest woman doesn't care whether her nose looks shiny or not—Chicago Record.

**Another Reason.**  
"Uncle Josh, don't you know you are standing in your own light when you oppose the good roads movement? In the saving of horseflesh and convenience in getting your produce to market when you can sell it for the highest prices good roads would pay what they cost, many times over."

"Mebby so, young man; mebbly so. All I know about the roads is that I'd like to have 'em rough enough and muddy enough to keep the darn candidates from comin out here and botherin the life out of me."—Chicago Tribune.

**Just a Trifle Mixed.**  
They look upon gold as the thing which brought the British. Railroads have fostered a civilization which they hate and telegraphic transmission of their doings to a world with which they are out of sympathy. If all these things were wiped off the face of the earth, could they not enjoy the pastoral life of the palmey days of their isolated nation?

Any idea that war between the British and Boers would be of short duration may be held in England, but is not entertained here. For example, F. C. Selous, the famous hunter and an authority on all matters pertaining to South Africa, estimates the duration of the war at more than 18 months.

The Boer republic may die, and so may the Boer people, but never has there been and never will be life more tenacious or death more expensive. CECIL ROY.

**THE CAPITAL SEASON.**  
[Special Correspondence.]  
WASHINGTON, Oct. 28.—With the advancing autumn comes the revival of life and activity at the national capital. The Washingtonians who have been spending the summer abroad or at seaside resorts have returned and re-established themselves in their homes, the members of the foreign legations are back from their summer outings and the senators and representatives in congress are beginning to put in an ap-

pearance and getting ready for their winter's work and incidentally a winter's recreation. The indications now are that this will be a season of quite unusual social activity and activity at the Capital City, and already plans are being made for a number of brilliant functions.

A new congress always brings a lot of new people and new ambitions to make places for themselves in Washington society. Not a few of the members elect of the Fifty-sixth congress, who will begin their experience in the national legislature on the first Monday in December, have been here house hunting, and some of them will have quite elaborate establishments. Among the new senators are some who have rather long purses and ambitious families, and it is expected that they will make a strong bid for social prominence. All this pleases the permanent residents of Washington, as it adds to the general gaiety of the capital and helps the local shopkeepers, florists and caterers.

Senator Clarke of Wyoming, who spent the greater part of the summer in the Hawaiian Islands, lately arrived in the city to make arrangements for his winter abode here. The Wyoming senator is quite enthusiastic over Hawaii and thinks that it should have a territorial government like that of New Mexico and Arizona. "Honolulu," he said, "is making rapid strides in the march of progress. Its harbor is crowded with shipping, and its business men report unprecedented activity in trade."

The matter which is now receiving the most attention in official circles is the coming census. General Sanger, director of the census in Cuba and Porto Rico, will leave in a few days for Ponce to take charge of the organization of the census bureau there. It is expected that the report as to the population of Cuba, with abundant industrial statistics, will be ready for submission in time to furnish congress with needed data for legislation regarding the future of the island.

Admiral Dewey's acceptance of the offer of a home in Washington as a gift from his countrymen gives assurance, if any such assurance were needed, that the national capital will be his permanent home. The admiral told the committee that he did not want an elaborate mansion, but a quiet and modest home, and the sooner he had it the better it would suit him. He preferred that it should be ready made and ready furnished, so that he could just walk in and make himself at home.

The national government is soon to begin the erection of a new building for the department of justice, which promises to rank in architectural merit with other federal structures. The contract for the plans has just been awarded to George B. Post of New York, who designed the Manufacturers and Liberal Arts building at the Chicago exposition and the St. Paul, the Union Trust and the Mills buildings in New York, besides many other notable structures throughout the country. The site selected for the new department of justice building is the northeast corner of Pennsylvania avenue and Madison place. Facing it on the south side of Pennsylvania avenue is the treasury department building and on the west side is Lafayette square, with the statue of Lafayette.

The land to be occupied has a frontage of 187 feet on Pennsylvania avenue and 135 on Madison place. One of the requirements in the competition for the plan was that the design should be classical. The structure is to be on the Greek order, an important feature being the Ionic columns. It will be built of white marble.

The building is to be of fireproof construction and will be four stories high. The first floor will be occupied by the court of claims, the library and rooms for the court officials. On the second floor will be the offices of the attorney general, solicitor general, chief clerk and general agent. On the third floor will be the offices of the four assistant attorneys general. The top story will be given up to the division of accounts.

Surmounting the structure will be three figures representing Justice, Law and Equity. The arrangements and finishing of the interior will be those of a first class modern office building, the chief decorative features being confined to the halls, corridors and courtrooms.

**SAMUEL HUBBARD.**  
A GLEAM OF PLEASURE.  
Along the noisy city ways,  
And in this rattling city car,  
On this the dreariest of days,  
Perplexed with business fret and jar,  
When suddenly a young, sweet face  
Looked on my portance and pain,  
And lent it something of its grace  
And charmed it into peace again.  
The day was just as bleak without,  
My neighbors just as cold within,  
And even just as full of doubt,  
The world was just as full of sin.  
But in the light of that young smile  
The world grew pure, the heart grew warm,  
And smiling darkness a little while  
Across the darkness of the storm.  
I did not care to seek her name,  
I only said "What good she did."  
The sweet young grace be still the same,  
Or happy maid or happy wife.  
—Phillips Brooks.

**MUSIC IN EVERYTHING.**  
Pretty Surprises Met With In Geneva Music Box Factory.  
The chief industry of Geneva is the manufacture of musical boxes. Thousands of men, women and children are employed in the factories, one of which was visited by a traveler who gives some interesting particulars about his visit.  
An attendant invited him to take a seat. He did so, and strains of delightful music came from the chair. He hung his hat on a rack and put his stick in the stand. Music came from both rack and stand. He wrote his name in the visitors' register, and on dipping his pen into the ink music burst forth from the inkstand.  
The manner of the factory explained the process of making musical boxes, a business which requires patience and nicety.  
The different parts are made by men who are experts in those parts and who do nothing else year in and year out.  
The music is marked on the cylinder by a man who has served several years of apprenticeship. Another man inserts in the marked places pegs which have been filed to a uniform length. The comb, or set of teeth, which strikes the pegs and makes the sound is arranged by a man who does nothing else. The cylinder is then revolved to see that every peg produces a proper tone.  
The most delicate work of all is the revolving of each peg. It is done by a workman who has a good ear for music. He sees that every peg is in its proper place and is bent at the correct angle.  
When the instrument is in its case, an expert examines it to see that the time is perfect. St. Louis Republic.

**An Affectionate Daughter.**  
Sweet Girl (affectionately)—Papa, you wouldn't like me to leave you, would you?  
Papa (fondly)—Indeed I would not, my darling.  
Sweet Girl—Well, then, I'll marry Mr. Footcrap. He's willing to live here.—New York Weekly.

## GOLD DUST The Best Washing Powder.

Woman's Best Friend. Dirt's Worst Enemy.

**DEMOCRATIC PLATFORM**  
Adopted at the Zanesville Convention, August 30, 1899.

First—We heartily reaffirm the Chicago platform of 1892 and we especially emphasize the financial plank therein, and we continue to demand the free and unlimited coinage of silver and gold as equal primary money at the ratio of 16 to 1, independent of all foreign nations of the world.

Second—The Hon. William J. Bryan still retains our entire confidence and we demand his renomination in 1900.

Third—We recognize the solemn fact that our government cannot be both Republican and Imperial.

Fourth—We stand in the line with Washington, Jefferson, Jackson, Lincoln, Grant and other American patriots, living and dead, and desire the perpetuity of our Republic.

Fifth—We are radically and unalterably opposed to imperialism in the United States of America.

Sixth—We are opposed to entangling alliances with foreign kingdoms and empires.

Seventh—We commend the action of congress in declaring that our war with Spain was for humanity and not for conquest.

Eighth—We recognize the value and glorious achievements of our gallant soldiers and sailors from Bunker Hill to this very hour as being among the most thrilling and glorious in the history of the world, but we profoundly regret that the American soldiers are being unlawfully used in the name of liberty to crush and destroy dawning Republicanism in the Orient, and we denounce the secret and vicious alliance now in evidence between England and the Republican administration, whereby this nation may become involved in war with foreign nations.

Ninth—We demand that the Cubans and Filipinos not only be permitted but encouraged to establish independent republics, deriving all their government of power from the consent of the governed.

Tenth—We denounce the Republican party for its years of a direct subversion to the shipping interests of England, and we denounce the so-called Hanna-Payne shipping bill, which, if enacted into law, would further shackle our interests.

Eleventh—We are in favor of maintaining an efficient army.

Twelfth—A large standing army in our republic is a menace to liberty.

Thirteenth—We favor the initiative and referendum and the measure of the eight hour labor law, the most rigid inspection of mines and workshops. The prohibition of sweatshops and the abolition of the contract system of prison labor.

Fourteenth—We declare that all unlawful combinations of capital are the legitimate property of a gold standard and other corrupt Republican legislation and favored by the tariff, and we demand that all articles, the price of which are controlled by the trusts, be placed on the free list. We denounce the attorney general of the United States appointed from the state of New Jersey, the hotbed of trusts, for his refusing to enforce the statutes of the United States against them, and we commend the present attorney general of Ohio for his earnest effort to enforce statutes of Ohio against such illegal combinations, and pledge the nominee of this convention for attorney general to the enforcement of the statutes of this state against them.

Fifteenth—We demand the cessation of national bonded debt-building to curse posterity.

Sixteenth—We demand a return of rigid economy in the administration of public affairs and a proper reduction of all fees and salaries.

Seventeenth—We demand a reduction of taxation and a more equitable distribution of its burden.

Eighteenth—We believe that honest political leaders are necessary and respect of the people and parties. Political bosses are to be detested and inimical to our form of government. The Republican party in Ohio is now in bosses' control.

Nineteenth—We favor such appropriations by the legislature as may be necessary to ensure the success of the centennial to be held in Toledo.

Twentieth—We deplore the frequent and outrageous exercises of Lynch law in this and other states, especially against our colored citizens.

Twenty-first—We commend a constitutional amendment, providing for the election of a president and vice president, and the United States senators, by a direct vote of the people.

Twenty-second—Toward securing these kindred blessings, we earnestly invite the co-operation of all patriotic citizens.

**WHAT BOERS MAY DO**  
IF BEATEN, WILL THEY BLOW UP THE GOLD MINES?  
[Special Correspondence.]  
CAPE TOWN, Oct. 1.—The power of Paul Kruger must not be underestimated. He has the financial world by the neck. By blowing up the gold mines he can reduce the supply of yellow metal enough to make a panic throughout the world and perhaps change the financial policies of some of the greatest nations.

The Boers know that the British love gold. In fact, gold has been the chief cause of the present trouble. Thousands of people of all classes in England own stock in South African mines. These people can never be hit by Boer bullets, because they will stay at home. There is another way of piercing their hearts, however, and that is through their pockets. Why not blow up the gold mines?

The gold production of South Africa is now estimated at about \$100,000,000 a year, almost equal to the entire production of the world in 1890, when the total was only \$118,500,000. The mines from which this vast wealth comes are not all within reach of the Boers, but most of them are. To work have it is not necessary to destroy the mining excavations, but only the machinery. A few hundred pounds of dynamite would destroy the pumping works of the principal mines in the Transvaal and shut off gold production for some time. Machinery to the value of \$75,000,000 is exposed to such depredations.

The value of the gold product of leading mines is dazzling. In 1894 the principal fields produced 2,239,865 ounces, valued at about \$35,000,000. In 1895 there was an increase of over \$5,000,000. Since 1890 the yield has increased at the rate of between \$5,000,000 and \$10,000,000 a year. It has been calculated that within 50 years \$2,500,000,000 will have been taken

## STOP WOMEN

from exercising common sense? You can't do it. As the old rhyme runs: "The man's a fool who tries by force or skill To turn the current of a woman's will For if she will, she will, you may depend on't; And if she won't she won't, so there's an end on't."

Common sense tells a woman that when she's sick she needs a physician in the same way that a man needs a physician. Common sense tells a woman that in disease the first question is not of man or woman, but of recognized medical ability. Common sense applied to advertisements which invite women to "write to a woman because she is a woman and understands women," will show the women as appealing to that it's no use to write to any woman about disease unless that woman is a physician.

Common sense used in the reading of advertisements will discover that no claim is made in them to a physician's knowledge or diploma. And that is not because the claim would be morally culpable as a lie, but because it would be legally punishable as a fraud. The claim to be a doctor is a doctor in an advertisement, just so long as you don't actually claim to be a doctor, or put M. D. after your name. That's why the advertisement is worded "write to a woman" instead of write to a doctor.

Common sense has brought more than half-a-million women, afflicted with some form of female disease, to Dr. R. V. Pierce as one of the most expert physicians in the United States in the treatment of female diseases. Dr. Pierce is a specialist. He has given more than thirty years of active practice to the treatment of female diseases. Dr. Pierce is not a "physician" by courtesy. He is a physician regularly graduated, legally empowered to practice, and with thirty years of experience in the treatment of diseases of women, which he has made his specialty.

The offer of free consultation by letter made by Dr. Pierce is a real offer, an honest offer. It is an offer backed by a medical institution with a wide reputation, a staff of nearly a score of regularly graduated physicians, a practice which reaches every state in the Union and a record of more than half-a-million women treated and ninety-eight out of every hundred perfectly cured.

Write to a doctor. That's the first thing. Write to the doctor. That's the next thing. The woman's agent, Dr. R. V. Pierce, of the Invalids' Hotel, Buffalo, N. Y.

A Handsome Publication. "The Empire of the South," issued by the Southern Railway. "The Empire of the South," a 20-page book, handsomely illustrated, with most complete information ever compiled regarding the South and its industries is a valuable addition to any library.

This book is issued by the Southern Railway, having been compiled at a large expense, and it is the handsomest publication of the kind ever gotten out of the South.

Copy will be forwarded promptly to any address upon application to W. A. Turk, general passenger agent, Washington, D. C., with 15 cents to cover postage.

Hunting and fishing books, "Land of the Sky" pamphlets, maps and other illustrated literature mailed free to any address by J. C. Beard, Jr., W. P. A., 80 Adams st., Chicago, Ill.

C. A. Baird, 216 Fourth ave., Louisville, Ky.  
Wm. H. Taylor, Asst. General Passenger Agent, Louisville, Ky.

**What do the Children Drink?**  
Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee.

The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared is not only the choice grades of coffee but costs about 1/4 as much. All grocers sell it. Use and see.

**Try Grain-O!**  
It's that you give your children a better food than tea or coffee. Accept no imitation.

**CONSTIPATION.**  
"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and I was rich I would give \$100 for each movement; it is such a relief."  
180 Russell St., Detroit, Mich.
